# SOLID STAINLESS STEEL VERSION FOR WET ENVIRONMENTS

HC-M VA

The solid stainless steel construction of the **HC-M-VA** is the perfect answer. Other materials have been deliberately avoided in the product areas.

This makes the HC-M-VA ideal for use in light to average humidity environments (protection class IP65). The Weigh Cell (with secondary hood), drive motors, and conveyors are all manufactured as stainless steel machine components. Additional options in stainless steel complete this outstanding hygienic package.

The stainless steel version of the HC-M-VA is a prime example of hygienic design as well as for product and consumer safety. Designed and implemented for frequent cleaning cycles, this machine very easily integrated in existing production lines.

The easy and intuitive software interface ensures comfortable operation on an 10,4-inch, clearly laid out, colour TFT display with touchscreen.

## MAIN FEATURES
